PRESCRIPTION MONITORING PROGRAM
USING THE CONNECTICUT PRESCRIPTION MONITORING AND REPORTING SYSTEM (CPMRS)
Prescription Monitoring Program

- Provide you a valuable tool for the better health management of your patient.
- The Connecticut PMP has 3 years of controlled substance data.
- Available 24/7.
Prescription Monitoring Program

• State-instituted programs.
• Provide electronic access to history of prescribed (and filled) scheduled drugs.
• Required pharmacy data reporting.
• States vary in program design:
  • Reporting of Schedules (II or II-IV).
  • Response to inquiries: reactive or proactive.
• Safeguards for patient confidentiality.
Prescription Monitoring Program

Federal Guidelines:

- NASPER
  National All Schedules Prescription Electronic Reporting Act.

- Department of Justice
  Harold Rodgers Prescription Monitoring Grant.

- Data Sharing
  - Between states with MOU’s.
  - Currently in Trial Phases.
  - PMP Interconnect – NABP System.
  - PMIX - DOJ.
Prescription Monitoring Program

Key Features:

• Alerts.
• Patient Controlled Substance History Report.
• Practitioner Prescribing History Report.
Prescription Monitoring Program

- In 2007, legislators enacted Section 21a-254 providing for a PMP.
- The PMP became fully operational in February 2008.
- July 1, 2008, the CPMRS went live.
- Funding through the U.S. Department of Justice (DOJ) and the U.S. Department of Health & Human Services (HHS)
What is the CPMRS

• Data collection began in July of 2008

• Data stored in centralized, relational database

• Data submission, twice a month, from over 700 pharmacies dispensing controlled substances in Connecticut (including another 400 out-of-state mail order and Internet pharmacies).

• Minimum of three years of data
WHAT KIND OF DRUGS ARE REPORTED?

SCHEDULE II –
Oxycontin, methadone, morphine, Ritalin

SCHEDULE III –
Lortab, Vicodin, testosterone, Tylenol with Codeine

SCHEDULE IV –
Valium, Xanax, Darvocet-N100, Ambien

SCHEDULE V –
Lomotil, Robitussin AC
WHO CAN ACCESS INFORMATION?

- Prescribers for their patients only
- Pharmacists for their patients only
- Law Enforcement may obtain information from the system only when there is an active investigation.
  - Those entities currently and previously allowed access to prescription information.
  - Must have a case number in order to request any information from the system.
Education/Outreach

General Public:

• Prescription Drug Abuse

• Safe Storage and Disposal of Over-The-Counter (OTC) and prescription medication

• Medication Safety

Prescribers & Pharmacists:

• How to Access & Use the CPMRS

• Signs of Drug Seeking Behavior
Educational Materials

PMP Website: http://www.ct.gov/dcp
Based on CMS Requirements:

- Copy resistant background.
- "Void" appears when photocopied.
- Tamper resistant ink shows attempts to chemically alter script.
- Each order has individual numeric identifier.
- Security features box on reverse details security features.
- Thermo chromic Rx disappears when rubbed or heated.

- Oxycodone & Acetaminophen
- Oxycodone
- Alprazolam
- Zolpidem Tartrate
- Hydrocodone Bitartrate & Acetaminophen
Prescription Monitoring Program

The prescription monitoring program collects prescription data for Schedule II through Schedule V drugs into a central database. Connecticut Prescription Monitoring and Reporting System (CPMRS), which can then be used by providers and pharmacists in the active treatment of their patients.

The purpose of the CPMRS is to present a complete picture of a patient’s controlled substance use, including prescriptions by other providers, so that the provider can properly manage the patient’s treatment, including the referral of a patient to services offering treatment for drug abuse or addiction when appropriate.

The Connecticut state legislature passed a law in 2007 that requires information about all transactions for controlled substances (Schedule II-V) dispensed in Connecticut to be reported to the State of Connecticut Department of Consumer Protection Prescription Monitoring Program. Pharmacies -- both in and out of state -- will submit data twice per month. The data is then cleaned if needed, and added to a relational database.

For more information please call (860) 712-6073 or e-mail us at DCP.prescriptions@ct.gov.

Disclaimer: The CPMRS receives data twice per month from dispensing pharmacies. Therefore, the data within the database may not be accurate or complete. For more information about any prescription, please contact the dispensing pharmacy or the prescriber.

Disclaimer: The State of Connecticut does not warrant the above information to be accurate or complete. The Report is based on the search criteria entered and the data entered by the dispensing pharmacy. For more information about any prescription, please contact the dispensing pharmacy or the prescriber.
CPMRS Data

- The data is not perfect
- The data must be verified
- Possible errors
  - Incorrect input from pharmacy,
  - Inconsistent data from corporate
  - Pharmacy not reviewing error reports
  - Soundex
  - Returned to stock meds
  - Hospital DEA
- The system is only a tool.
USE OF THE REPORT:
What you can do?

• The practitioner may:
  – Discuss the findings of the report, not the contents of the report, with;
    • The patient,
    – Another health care provider treating the patient
    – A dispenser who has dispensed or will dispense medications to the patient
USE OF THE REPORT

What you can’t do?

• **YOU MAY NOT** SHARE THE ACTUAL REPORT WITH ANYONE NOT INVOLVE IN THE TREATMENT OF THE PATIENT.
